

**SOMERSET DEMENTIA**  
Wellbeing Service

The new **Somerset Dementia Wellbeing Service** is a collaboration between **dementia services** who are working together to **improve diagnosis, enhance support** in the **community** and provide an **excellent, consistent service** for people with dementia and their carers in Somerset.

This spring, to launch the new service, we are running a **series of roadshows** across the county to **showcase support options** available to people with dementia and their carers, and to give people an opportunity to experience a **free mobile dementia simulator!** The **Virtual Dementia Tour** simulators are a **scientifically and medically proven** method of giving a person with a healthy brain an **experience of what dementia might be like**, allowing people to understand which simple changes could be made to their practice and environment to really improve lives of people with dementia.

# SOMERSET DEMENTIA WELLBEING SERVICE ROADSHOW 2023

All roadshow days run from **10:00 AM to 4:00 PM** and will be attended by a wide range of **dementia support organisations and services.**
